

# UNITED IS THE WAY™

United Way of York County is working to help York County individuals and families reach financial security.

That starts with access to education and training opportunities to prepare people for jobs with a self-sufficient wage, with the potential to grow into long-term, sustainable careers.

# UNITED IS THE WAY™

By connecting York County families and individuals to financial education, coaching, and related services, UWYC enables families to budget and make wise financial decisions. Programs and tools are made accessible to people who need them. Help is available to assist in short - and longer - term financial challenges.

# UNITED IS THE WAY™

United Way of York County supports families along a path to financial security through programs to assist with both unexpected expenses and monthly expenses. Economic and family support is critical for family well-being. It includes assistance in childcare, housing, food, transportation, and other economic supports.

# UNITED IS THE WAY™

United Way of York County works to remove the barrier of childcare for working parents.

In partnership with York County First Steps and York Technical College, UWYC provides childcare assistance to students enrolled in a degree, certificate, or licensing program; or is completing an internship or apprenticeship.

This program allows working parents to be in school full-time, have time to study uninterrupted, and to earn a degree/license and provide career opportunities that provide a self-sufficient wage for their family.

# UNITED IS THE WAY

United Way of York County leads the York County COAD that bring together organizations, businesses, and governmental agencies to foster more effective preparedness, response and recovery in time of disaster through cooperation, coordination, communication and preparedness.

YC-COAD envisions and strives to support a resilient community with the capability to recover from disaster where every individual feels safe, supported, and empowered.
