

WHY UNITED WAY?

By investing and innovating in local resilience and financial security, United Way of York County is working toward a future where every person in our community can reach their full potential.

UWYC is working to help low-to-moderate-income households achieve financial security. That starts with access to education and training opportunities that prepare for and grow into long-term, sustainable opportunities. United Way works with community partners to make financial education, coaching, and related services more accessible to the people who need them the most.

We Connect, Convene and Champion our resources where the greatest impact can be made to eliminate

the complex hurdles limiting families to simply surviving instead of truly thriving.

- 99%** of funds stay local with 1% toward training, branding, and development
